---	---

Dear Madam/Sir,

**Sub: Grant of Patent**

**Ref: Intimation under Regulation 30 of the SEBI (LODR) Regulations, 2015**

With reference to the subject cited, we wish to inform that Tanla Digital Labs Private Limited, Wholly-owned Subsidiary of Tanla Platforms Limited has been granted patent under The Patents Acts, 1970 and rules made thereunder, for an invention titled ***Messaging Platform for Auditable Transmission of Messages from Sender Application Server to Recipient Application Server***”.

The Innovation in this patent addresses the issue of lack of transparency in commercial communication. Wisely, a Tanla Platform, uses Blockchain technology to record various steps in transmission of the commercial communication from the business enterprise to its end-customer. This innovation uses the immutability of Blockchain to enable the business enterprise to audit the count of messages as well as the message routing.

The USPTO has also granted a patent for the above cited invention apart from 2 other patents granted for secured transmission of messages using enhanced encryption and decryption techniques.

This is for your information and necessary records.

Yours faithfully,

For **Tanla Platforms Limited**  
(Formerly known as Tanla Solutions Limited)
